Illustrations

Mk 19 Airborne Radar

Illustrations per courtesy of Mr Chris Poole.

The Scanning Unit Type 120, the TR3699 RF assembly and the Indicator Unit Type 28 are all typical of the 3 centimetre ASMk19B airborne radar which was fitted to the aircraft carrier borne Fairey Gannets during the early 1950s. See full account of this radar system under the heading of ASV Mk 19B, which includes the Service Trials Unit report, classified SECRET until 2002.

AI 17 Radar in Sea Venom FAW (Fighter All Weather) Mk 53

Illustration per courtesy of Mr John Saywell OAM.

See full account of this radar system under the heading of "AI Mk 17 Radar System in Sea Venom FAW Mk 53 R.A.N. Aircraft – Trials and tribulations.

The GGS Mk 5 Radar Ranging Gunsight

H.M.A.S. Shropshire, County Class Cruiser

Illustration per courtesy Lt Commander Mackenzie Gregory R.A.N. (ret'd)
